ABOUT
COMPANY

Green tech Landscape Company is proudly owned and managed by **Mr. Ijaz Hussain** a passionate landscape designer with several years of experience in horticulture and garden planning. He establish the company in 2020 in Karachi Pakistan.

Our company's working method is to start each project by understanding the client's needs, budget, and the natural environment. After that, we take site measurements and prepare a 2D plan using AutoCAD. Then, with the help of modern landscape software, a detailed 3D design is created so the client can view the complete layout in advance. Finally, our expert team installs the garden accessories according to the approved landscape design.

OUR
MISSION

Our mission is to provide a natural, attractive, Peaceful, and healthy environment.

OUR
VISION

Our vision is to become the leading landscape company in the country in the near future, offering a perfect blend of modern design and natural beauty.

OUR SERVICIES

MAINTENANCE

Ongoing care and upkeep to keep your garden fresh, healthy, and thriving all year round.

BUILD

Expert construction of landscapes, hardscape & features with precision, quality & durability.

DESIGN

Smart planning & 3D visualization to create beautiful, functional outdoor spaces tailored to your vision.

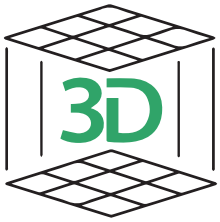

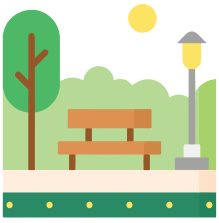

Landscape Architectural Planning

We design functional, aesthetic, and sustainable outdoor spaces through expert planning, site analysis, and creative layouts that transform your vision into reality.

3D Visualization

Experience your project before construction with realistic 3D renders and walkthroughs that help you visualize design concepts with clarity and confidence.

Hardscape

We build durable outdoor structures including patios, pathways, driveways, retaining walls, and seating areas that enhance both beauty and functionality.

Garden Features

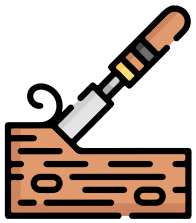

Add charm and character with custom garden elements like fountains, pergolas, lighting, flower beds, and decorative accents that elevate your outdoor space.

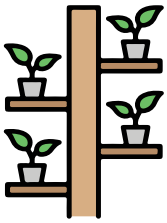

Stone Carving

Our skilled artisans create bespoke stone carvings, sculptures, and decorative pieces that bring timeless elegance and craftsmanship to landscapes.

Faux Wood Works

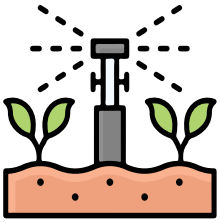

Enjoy the natural look of wood with long-lasting faux wood structures that resist weather, pests, and decay while maintaining a beautiful finish.

Vertical & Artificial Gardens

Maximize greenery in any space with vertical and artificial gardens that provide low-maintenance beauty, improved ambiance, and modern design appeal.

Irrigation System Design & Installation

We design and install efficient irrigation systems that ensure optimal water distribution, healthier plants, and reduced water waste through smart technology.

CLIENTS FEEDBACK

Mondelez International

GreenTech Landscape completely transformed our office environment with beautiful outdoor landscaping and refreshing indoor plants. Their team was professional, timely, and highly organized. The workspace now feels greener, healthier, and more welcoming for our staff.

Dar-ul-Alum, Karachi

GreenTech Landscape provided complete landscape services for our campus. They created clean, green, and peaceful outdoor spaces for students and staff. Their maintenance and plantation work have truly enhanced our environment.

Al-Karam Housing Society

The family park, walkways, and water features have added real value to our community. Residents now have a beautiful, safe, and relaxing space to enjoy daily. We highly recommend GreenTech Landscape for large-scale projects.
